EDUCATION

Sandip Institute of technology & research center June 2020 - May 2024
B.E in Computer Engineering | CGPA - 8.95

TECHNICAL STRENGTHS

Languages : *Java, Python, JavaScript*
Web Development: *Html, CSS, Tailwind Css, JavaScript, ReactJS*
Backend: *NodeJs, Ruby on Rails*
Databases : *MySQL, AWS, MongoDB*
Version Control : *Github, GitLab*
Programming: *DSA, OOPS, Problem-Solving*

EXPERIENCE

Fuzen.io Sept' 2024 – Present
Software developer Intern

- Developed blocks for a no-code platform using **JavaScript**, **React**, and **Ruby on Rails**.
- Worked on projects involving no-code platforms, focusing on **JavaScript** and **React** for the frontend to create dynamic, reusable blocks.
- Integrated frontend blocks with server-side logic using **Ruby on Rails**.
- Utilized **ERB (Embedded Ruby)** in the block code to seamlessly connect the frontend with the backend.
- Collaborated in creating scalable and efficient solutions for no-code platform users.

Matoshree IT Solutions Pvt. Ltd. Jan' 2024 – April 2024
Front End Development Intern

- Developed user-friendly web interfaces using **HTML**, **CSS**, **JavaScript**, and **React**.
- Collaborated closely with the design team to implement responsive designs that met UI/UX standards.
- Ensured the technical feasibility of UI/UX designs, optimizing web pages for performance and scalability.
- Demonstrated strong problem-solving skills, adaptability, and a commitment to delivering high-quality work with minimal supervision.

SachiTech, Nashik Feb' 2023 - May' 2023
Web Development Intern

- During my three-month internship, I focused on advancing my skills in web development, specializing in **HTML**, **CSS**, and **JavaScript**.
- Worked on hands-on projects that deepened my understanding of front-end technologies.
- Gained proficiency in **Bootstrap**, **JavaScript**, and **React**, further enhancing my ability to develop responsive and interactive web interfaces.

PROJECTS

FULL STACK REAL-ESTATE WEB APP [LINK](#) *[technologies used : MongoDB, Express.js, React.js, Node.js, Api Integration]*

- Developed a full-stack real estate web application using the **MERN stack** (MongoDB, Express, React, Node.js).
- Integrated real-time chat functionality with **Socket.io** to enable live communication between users.
- Managed sessions using **cookies** and implemented the **Context API** for seamless state management across the application.
- Leveraged **React Router DOM** for smooth, dynamic navigation within the application.

GPT MODERN UI [LINK](#) *[technologies used : HTML, CSS, JavaScript, React]*

- Built a responsive GPT modern UI website using **HTML**, **CSS**, **JavaScript**, and **React**.
- Designed a sleek, adaptive interface with interactive elements to enhance user engagement.
- Implemented efficient state management in **React** to ensure a smooth and seamless user experience.

BREAST CANCER DETECTION

[technologies used : Python, Flask]

- Developed a **breast cancer detection system** using **Python** and **Flask** that predicts cancer likelihood from medical images through machine learning algorithms.
- Built a user-friendly web application that provides an intuitive interface for diagnosis, improving accessibility to medical predictions.
- Demonstrated strong expertise in **Python**, **machine learning**, and **web development**, with a commitment to healthcare innovation.

CERTIFICATIONS :
